## ABOUT ME

I am a Junior Developer with experience in university projects and a fast learner of new technologies, ready to contribute value and grow professionally in the software development field.

## PROFESSIONAL EXPERIENCE

### Junior Developer

Motomensajeria - 2024

We developed this project from scratch as a team, where I was mainly responsible for backend development and creating unit tests.

- Code improvement and optimization.
- Integration with Mercado Pago and Google Maps APIs.
- Collaboration in testing and debugging using Mockito.

### Junior Developer

Pizarra Online - 2023

I participated in the development of both front-end and back-end components, contributing to the improvement of design and user interaction. Some of my key tasks in the position included:

- Design improvement using Bootstrap and CSS3.
- Development of the web application using C# and SignalR (ASP.NET).
- Optimization of user interaction through a chatbot and visualization of drawings on the whiteboard.

### Junior Developer

Blackjack - 2022 - 2023

I independently developed this project using Spring Boot, applying best development practices.

- Integration with Mercado Pago API.
- Backend support with Java and MySQL.
- Development of front-end components with HTML, CSS, and JavaScript.

## SKILLS

- C# & Bootstrap
- Java & Thymeleaf
- MYSQL & SQL Server
- TypeScript
- PHP | Ajax & Mustache
- HTML5 | CSS3 & Javascript

## FRAMEWORKS

- ASP.NET
- Spring Boot
- Laravel
- Angular
