ABOUT ME

I am a Junior Developer with experience in university projects and a fast learner of new technologies, ready to contribute value and grow professionally in the web development field. I am seeking a professional opportunity to apply and expand my knowledge in dynamic environments and continuous learning.

ACADEMIC AND PERSONAL EXPERIENCE

Academic project
Motomensajeria - 2024

In this project, I was primarily **responsible** for **back-end** development and creating **unit tests**.
- Code improvement and optimization in **Java**.
- Integration with **Mercado Pago** and **Google Maps APIs**.
- Collaboration in testing and debugging using **Mockito**.

Academic project
Pizarra Online - 2023

I participated in the development of both **front-end and back-end** components, contributing to the improvement of **design** and **user interaction**. Some of my key tasks in the position included:
- Design improvement using **Bootstrap** and **CSS3**.
- Back-end and front-end development using **ASP.NET Core**, **C#**, and **SignalR**.
- Optimization of user interaction through a chatbot and visualization of drawings on the whiteboard

Personal project
Retro Football Store - 2025

I independently developed this project with **PHP** using **Laravel**, applying **best development practices.**
- Integration with **Mercado Pago API**.
- Image **optimization** and **responsive** design implementation.
- Error **handling** and validations.

Academic project
Taskerly - 2024

This academic project was developed using Angular, where my main tasks were:
- Management and connection with **Node.js**
- **CRUD** development
- Simplify components and add validations.
